

# WILLIAM VIOLETTE

FULL STACK JAVASCRIPT DEVELOPER

## PROFILE

I'm passionate about innovation and using technology to accomplish this. As a hobbyist mechanic, I love taking things apart and putting them back together. My experiences contribute to me being a well rounded technical professional. I am very familiar and experienced with Web Application Architecture and continue to expanding my learning every day. I'm working towards expanding my coding ability to pursue a career where I can make an impact.

## PROFESSIONAL EXPERIENCE

### Mobile Application Engineer

April 2019 – Present

#### WildCard Development, South Jordan

Collaborator for a full stack React Native Project, building a cross platform app for a published book, The Wild5 Wellness Program. Tasks include design, planning, and engineering. Extensive use of RN APIs, Firebase, and 3rd party packages.

### Support Engineer II

2014 – 2018

#### Carbonite, West Valley City

Conducted technical support for enterprise system backup, restore and disaster recovery requests. Provided critical technical interface to customers and managed service providers requiring exceptional understanding of Carbonite Server Backup software as well as environmental troubleshooting.

- Contribute and assist to develop support's internal and external product knowledge base.
- Participate in the discovery and documentation of software issues and thoroughly test to determine root cause analysis while providing resolution.

### Systems Administrator II

2010 – 2014

#### Technik Inc, Dugway, UT

Provided technical support for field and lab test workstations. Utilized strong background in Information Assurance while following directives from the Department of Defense, DISA and US army regulations. Extensive knowledge of local and domain group policies while being able to accommodate software functionality.

- Managed 300+ active directory user accounts in multiple OUs; effectively worked onsite with other support teams to provide infrastructure for field testing. Managed standalone and network updates for 600+ nodes; Provided quick resolution for 3rd party application support for active tests being conducted.

### IT Specialist

2008 – 2013

#### Utah Army National Guard, Camp Williams, UT

Implemented all aspects of desktop, system, and networking support to 150+ personnel. Managed, tracked and held accountability of all IT inventory.

- Championed launch of several systems in a tactical and time critical environment; collaborated with contractors and vendors to resolve complex issues. Was responsible for all hardware/software implementation on server stack.

## PERSONAL

### V School

2019

#### Salt Lake City, UT

Successfully completed a 12 week immersive full stack javascript course. As a culmination of all the material taught, I was able to build a full stack application for a company, Q3 Student Partners. I built a web app with full user authentication, a Restful API which allows the company to survey their students through questions and track areas of improvement by displaying the data visually.

#### Technical Certifications

- MTA Windows Server Administration Fundamentals (2017)
- CCENT – 2014 (expired)
- ISC2 SCCP – 2013 (expired)
- MCP Windows 7 Configuration – 2011
- CompTIA Network+ - 2010
- CompTIA Security+ - 2010
- VCP4 – VMware Vsphere Course

## SKILLS

- HTML5
- CSS3
- Javascript
- MERN Stack
  - MongoDB
  - Express.js
  - React.js
  - Node.js
- React Native
- Xcode
- Android SDK
- Firebase
- Git

## OPERATING SYSTEMS

- Windows Server 2008/12r2/16
- Linux/Unix
- IBMi AS400

## SOFTWARE

- SQL/T-SQL
- Jira
- VMware
- Salesforce
